

Michael J. Moody

Ph.D. student in Physics, University of Delaware
mjmoody@udel.edu | mj-moody.github.io

Education

University of Delaware

Ph.D. in Physics

2026–Present

Newark, DE

University of Maryland, Baltimore County

B.S. in Physics, cum laude

August 2026

Baltimore, MD

Awards and Funding

Undergraduate Research Award (URA)

University of Maryland, Baltimore County

2025

Publications

Peer-reviewed articles

- A. Budiyo, **M. Moody**, H. L. Prihadi, R. Rahmawati, and S. Deffner, “Quantum speed limit for observables from quantum asymmetry,” *Physical Review A* **113**, 042450 (2026). DOI: 10.1103/PhysRevA.113.042450. arXiv:2511.16526.

Manuscripts in preparation

- **M. J. Moody**, T. Kalsi, A. Budiyo, and S. Deffner, “Quantum speed limits for einselection in non-Markovian quantum dynamics”.

Teaching

Graduate Teaching Assistant, PHYS 202: Introductory Physics II

University of Delaware

Fall 2026

Newark, DE

Private Tutor, Mathematics and Physics

2025–Present
