

Michael J. Moody

Incoming Ph.D. student in Physics, University of Delaware
mjmoody@udel.edu — mj-moody.github.io

Education

University of Delaware

Ph.D. in Physics

Fall 2026–

Newark, DE

University of Maryland, Baltimore County

B.S. in Physics and Mathematics

Expected Summer 2026

Baltimore, MD

Awards and Funding

Undergraduate Research Award (URA)

University of Maryland, Baltimore County

2025

Publications

Peer-reviewed articles

- A. Budiyo, **M. Moody**, H. L. Prihadi, R. Rahmawati, and S. Deffner, “Quantum speed limit for observables from quantum asymmetry,” *Physical Review A* **113**, 042450 (2026). DOI: 10.1103/PhysRevA.113.042450. arXiv:2511.16526.

Manuscripts in preparation

- **M. J. Moody** and S. Deffner, “Quantum speed limit for observables in Markovian open quantum systems”.

Teaching

Private Tutor, Mathematics and Physics

2025–
